

SKILLS

- C/C++ • Javascript • Typescript • Java • Python
- NodeJS • ReactJS • NextJS • MongoDB • MySQL

PROJECTS

- **SDG Buddy: Sustainable Action Tracker**
 - A Sustainable Action Tracker designed to help individuals align their daily actions with the United Nation Sustainable Development Goals (UN SDGs)
 - Each action logged by user is mapped with one or many of the SDGs and based on that they are rewarded
 - User got rewarded based on his/her contributions towards sustainability
- **Pharmacists: Appointment Management System**
 - An Appointment management platform where doctors can register themselves and list their free slots and patients can fix their appointments from one of those free slots
 - Through this patients can check the free slots of the desired doctor and doctor can also manage their daily slots
 - Patients can also review the doctor and doctors can also review for patients which increases the trust between doctors and patients

COURSE WORKS

- **GeeksForGeeks:** Certified C/C++ Language Developer
- **Udemy:** Certified Assembly Language Developer
- **Deloitte Australia Cyber Job Simulation on Forage - July 2025**
 - Completed a job simulation involving reading web activity logs
 - Supported a client in a cyber security breach
